How to create an EU-Login?

To create an EU-Login, you should follow the steps that are described on the EU-Login website.

If you already had an eTwinning account but did not yet log in to the European School Education Platform, it is important to create an EU-Login with the same e-mail address that you used to register on the old eTwinning platform.

If you have an eTwinning account and an EU-Login with the same e-mail address or if you have an EU-Login but did never register on the eTwinning platform, you can go ahead and register on the European School Education Platform.

You are ready to create your eTwinning account on the European School Education Platform!

Why you should join eTwinning

eTwinning has created a school without borders, a common educational space for teachers and pupils. eTwinning promotes school collaboration in Europe through the use of information and communication technologies by providing support, tools and services to project schools.

The portal also offers online tools for teachers to find partners, launch projects, share ideas and best practices. Thanks to all individual tools, each member of the community can build interesting and useful partnerships with teachers throughout Europe in an easy, convenient and quick manner.

After the selection of the country of your school, you can search your school on the eTwinning platform.

You know that your school is active in eTwinning, you can enter the name of your school and link your profile to your school. If you cannot find the school but you are sure that it exists in eTwinning, you can skip this step and link your profile to the school later on.

You don't know if your school is already registered? Try to find your school with the search function. If it already exists, you can choose your school from the list. If the school does not have a profile yet, you will have to create a profile for your school.
