About the programme

The conference organised by the Erasmus+ National Agency for Higher Education, DAAD and hosted by the Film University Babelsberg Konrad Wolf welcomes representatives of Higher Education Institutions in the field of music, art and design to strategically discuss institutional- and programme development in the light of future international cooperation.

The discussions on these issues will be triggered and framed by the opportunities and challenges posed by the project of European Universities. These aim at 'bringing together a new generation of creative Europeans, who are able to cooperate in different languages, across borders and disciplines, to address the big societal challenges and skills shortages that Europe faces.'

The Monday evening offers an opportunity to meet each other and gain an understanding of the state of professional networks in Europe, as well as a perspective on the challenges ahead.

The Tuesday morning focuses on the project of the European Universities from a policy-, an institutional-, as well as an operational perspective. The afternoon offers workshops on innovative methods of transversal learning, teaching and research in thematic areas set out by the call for European Universities. In each workshop two impulse speakers provide practice examples to trigger the facilitated discussion. A plenary session brings together the discussion of all workshops towards concrete questions for the next day and closes with a reflective speech. The evening is dedicated to informal exchange during dinner.

The outcomes of the workshops form the background for the Wednesday morning: Open Space Technology provides an interactive method to discuss ideas and concerns with like-minded colleagues and lead delegates to identify a roadmap for the sector towards European Universities in the arts. The two days end with an outlook on the specific European nature of future transnational cooperation of the creative and artistic art schools in Europe.

As Erasmus+ National Agency for Higher Education, we would like to cordially thank our colleagues who supported the design of the conference: Jens Ewen (Hochschule für Musik FRANZ LISZT Weimar), Christian Kästner (Bauhaus-University Weimar), Anne-Maria Stresing (Film University Babelsberg KONRAD WOLF) and Regina Werner (The Berlin University of the Arts).
