Objectives:

Green Erasmus: pathways to sustainable projects and institutions aims to support project promoters and interested applicants implementing the Erasmus+ horizontal priority “environment and fight against climate change”. The main objectives are to raise awareness of sustainability issues within Erasmus+ and to establish or strengthen European cooperation partnerships. The TCA is particularly designed for newcomers to partnerships for cooperation in the field of vocational education and training (key action 2), e. g. inexperienced providers or providers who are inexperienced with the topic of sustainability. It will help to identify the role and contribution of cooperation partnerships for Europe’s green transformation, to transfer good practice and to learn from each other.

Moderation: Julia Lubjuhn, National Agency at BIBB
