

## Digital Inclusion in School Education

25-27 October 2023- Malta

<b>Summary of TCA outcomes</b>	<p>The TCA Digital Inclusion in School Education was organized by the European Union Programmes Agency (EUPA), Malta and the Salto E&amp;T Resource Centre, Hungary and coordinated by Digitalisation LTA Coordinator</p> <p>24 participants from 10 countries and 4 project owners from 3 countries participated in the event. The participants were SE KA2 projects holders and social inclusion project owners in school education with experience in virtual implementation within projects.</p> <p><b>Aims:</b></p> <ul style="list-style-type: none"><li>- Familiarise participants with possible impacts of virtual / digital implementation on inclusion project outputs.</li><li>- Familiarise participants with the results of our one-year Digitalisation LTA Research so that they can use them during the implementation of their own projects.</li><li>- Provide participants with perspective by introducing successful virtual implementation practices in the field of inclusion.</li></ul> <p>During the seminar good practices from different countries (Malta, Hungary Czech Republic ) were shared with the participants to support them to include digital tools in their projects.</p>
<b>Types of outcomes</b>	The participants were provided with a variety of materials, tools and activities, which enhanced their motivation and active participation and engagement

	In order to become more able to involve people with fewer opportunities, best practices were shared with the participants that support inclusion with digital / virtual tools and methodology
