WELL BY THE PRINCIPAL***

DIGITAL LEADERSHIP

The school offers digital leadership possibilities.

Tecnology is integrated in all subjects TO MAKE THE LESSONS MORE INTERESTING.

Students can use chrome books given by school, but they cannot use their own device (mobile) because of the national law prohibiting the use of mobile phones at school. So it is very important that students have a good layout of the spaces to spend their free time SAFE AND HAPPY.

Questions for the principal:

1

For how long have your organisation worked with role-models/ambassadors?

2,5 years in the last school. She's working in this one for 6 months.

2

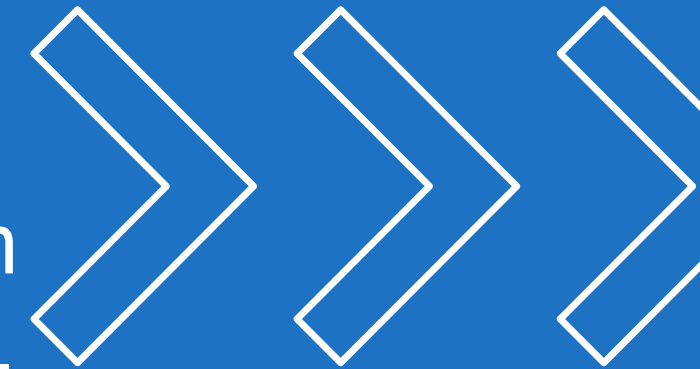

How many ambassadors do you have in your organisation?

3 ambassadors

3

Give some examples on how you work with role-models/ambassadors.

Everytime a teacher goes abroad on his/her return he/she must prepare a presentation to share with the others.

4

What would you say is the best way to create in interest to become role-model/ambassador?

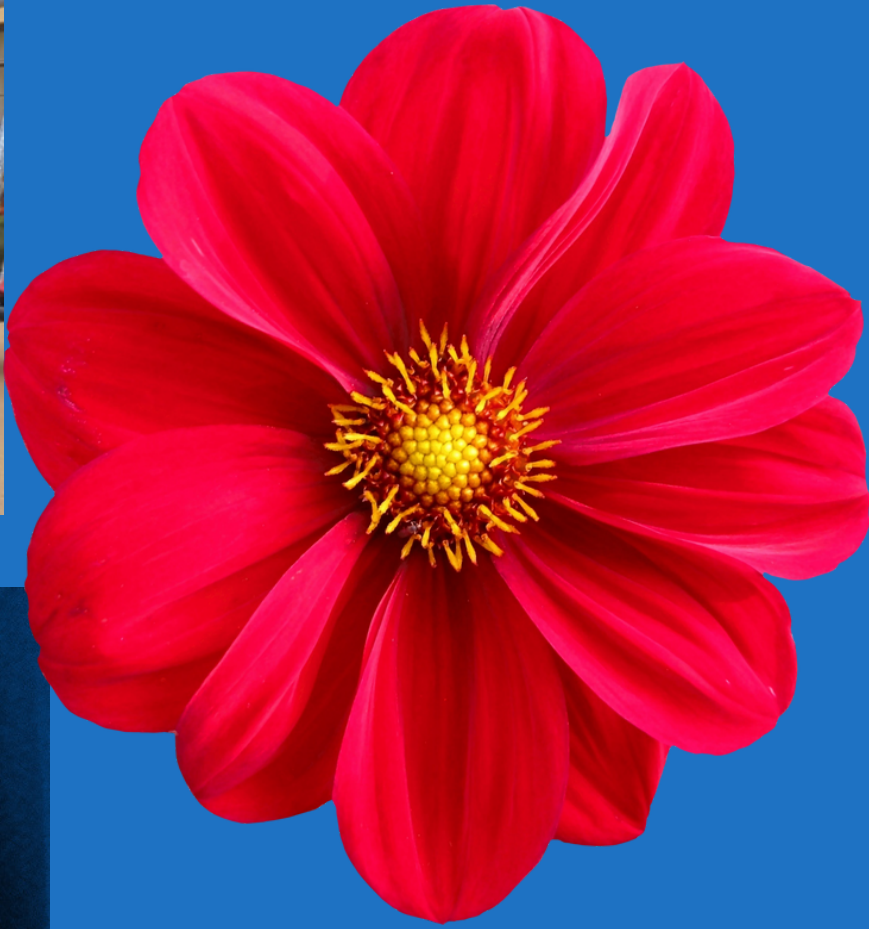

One of the keys is that the principal is engaged.

5

Any obstacles?

Time, substitutes of teachers going in mobilities.

*Thank
you!*
