

Driving vocational excellence in construction trades.

Who We Are: The CCCA-BTP is the national French professional organization responsible for coordinating apprenticeships in the construction industry.

Managed by the main employers' and employees' representative federations of the construction industry at the national level, we have been dedicated to enhancing vocational training in the construction sector for over 80 years.

Our key Mission: At CCCA-BTP, we are committed to:

- Implementing apprenticeship programs tailored to the construction industry.
- Monitoring the construction sector and vocational training needs.
- Conducting barometers and territorial studies to improve training quality.
- Designing innovative pedagogical guidelines and resources.
- Promoting construction industry occupations.
- Financing innovation in construction trades and vocational training.

International Cooperation Unit (PIC): At CCCA-BTP, it plays a pivotal role in fostering European mobility and cooperation. Our key activities are :

- **Steering Consortia for European Mobility:** We manage two consortia dedicated to the European mobility of apprentices in construction trades, facilitating valuable international experiences. (VET and HET)
- **Recognition of Learning Outcomes:** We ensure that the learning outcomes from European mobility are recognized, enhancing the value of international experiences for apprentices.
- **Identifying Skills Needs:** We work closely with construction companies to identify their skills needs, ensuring that our training programs are aligned with industry demands.
- **Professionalization Initiatives:** We focus on the professionalization of European projects referents and coaches to foster knowledge exchange and best practices sharing and meet the evolving needs of the construction sector.
- **Participation in European Projects:** The PIC actively pilots and participates in various European cooperation projects, contributing to the development of vocational training across borders.
- **Seminars for European Projects Referents:** biannual gathering which brings together key stakeholders to promote Erasmus + mobility in vocational training, to discuss European mobility development strategies in training centres.

Erasmus+ Funding: For the 2022-2024 period, CCCA-BTP has been granted €2.3 million for Vocational Education and Training (VET) and €235,000 for Higher Education and Training (HET) to co-finance the European mobility of construction apprentices.

CCCA-BTP funding: The CCCA-BTP also finances the European and international mobility of apprentices. Last year the board of directors composed of professional employer's federations and employee trade union organizations voted a grant of 1.4 million € to co-finance apprentice mobility representing approximately 2.500 mobilities.

Our Commitment: We are dedicated to enhancing the skills and competencies of apprentices through international experiences, ensuring they are well-prepared for the evolving demands of the construction industry.

Why Partner with Us?

- Established network in construction vocational training
- Proven track record of successful international collaborations
- Commitment to innovation and skills development
- Direct access to a robust ecosystem of apprentices and training centers
