### TCA DESCRIPTION

<b>Themes and goals:</b>	<p>This is a thematic seminar that centres on a training for experienced KA2 experts (assessors/evaluators) of both applications and final reports in the fields of adult education (AE), higher education (HE), school education (SE) and vocational education (VET). The TCA will be divided into two complementary parts, and will be titled "Understanding Green Transition and Building Quality in KA2 Assessment". The first training element will last for one day and will be linked to SALTO GREEN and the LTA SUSTAINABILITY AND GREENING with goals centred on the training of experts to better recognise and assess the GREEN PRIORITY and its features in project design. The second training element will last for one-and-a-half days with goals centred on building common understanding and capacity among KA2 experts on how to effectively assess KA2 funding proposals and final reports, whilst also addressing aspects relating to comments, score sand consolidation steps. This second training element takes into account the results of the CLEAR LTA. The training will focus on learning through guidance, exchanging information, practising and discussion. For this part, preliminary work will be asked to prepare before the face-to-face event. Next to that, we will inform all participants about all 4 priorities. This training will be given by our Priorities Officer. Finally, we offer an extra optional training for those who are interested in the Flemish education system.</p>
<b>Expected results:</b>	<p>After the TCA, participants will:</p> <ul style="list-style-type: none"> <li>• better understand the priority green</li> <li>• understand how to assess the priority green in assessments</li> <li>• be able to use a developed tool to better evaluate the horizontal priority 'green' within a KA2 project application context</li> <li>• have a good understanding of all 4 priorities</li> <li>• be</li> </ul>

trained to better align their assessments of applications and final reports • be able to demonstrate a clear understanding of the assessment steps and assessment criteria involved in determining successful delivery of an Erasmus+ KA2 partnership. • be able to distinguish between factors which need to be considered at the end of a KA2 partnership and those which are predominantly judged at the point of application • be able to evaluate the final achievements in a KA2 partnership, providing comments and scores for NAs to use in their feedback to beneficiaries • have the opportunity to learn from each other via peer learning activities, workshops and discussions • have the ability to apply the gained knowledge and skills in future assessments
