TCA DESCRIPTION

Themes and goals:	The SchoolLink Conference is the flagship event of the Czech National Agency for International Education and Research focused on school education. This year's edition, titled Schoolink International 2026: Cooperate to Participate, will be designed for teachers and educators working with students aged 11–16. The overall theme of the conference will centre on participation as one of the key priorities of the Erasmus+ programme. Visit the conference website for more information!
Expected results:	The three-day programme will offer a wide range of inspiring topics and practical examples demonstrating how cooperation can strengthen meaningful participation in schools and international projects. The conference will focus on creating international partnerships, building the capacities of organisations involved in Erasmus+ and on enhancing the quality and inclusiveness of implemented projects. Participants will explore how to actively engage students in project planning and implementation, how to foster democratic participation in school life, and how international cooperation can empower not only young people to become active contributors to their communities.
Additional information:	The theme of participation will be a connecting thread throughout the conference. The conference will present concrete examples of successful project implementation from the perspective of project management, as well as innovative project outcomes that enrich everyday teaching and promote active student involvement. An integral part of the programme will also include contributions from colleagues working in non-formal education, presenting opportunities on how to make use of Erasmus+ Youth, the European Solidarity Corps, and DiscoverEU within the school context, and how these initiatives can

further support young people's active participation at both local and international levels.
