It will focus solely on the higher education sector and will take place from 12 to 13 May 2022. This event seeks to expand on the results of the NA DAAD's previous TCA in November 2020 "Erasmus+ Projects: Teaching and learning in a digital age". This two-day conference will address two different target groups: Day one will cover digital literacy in higher education administration focusing on KA1 and targeting university and departmental coordinators, International Office staff, Erasmus coordinators and administrative staff. Day two will address digital literacy in learning and teaching focusing on all funding lines in KA2 and KA3 and targeting project coordinators, newcomers, and professional experts. This refers to Cooperation Partnerships, Erasmus Mundus, Capacity Building, European Universities, Innovation Alliances, Forward looking projects, Social Inclusion projects, European Experimental Measures, Teacher Academies and Jean Monnet Activities.

Expected results: This event will seek to define and to develop approaches and strategies for digital literacy and digital competences through discussions, workshops,

networking and matchmaking.
