TCA DESCRIPTION

Themes and goals:	This is a training and development event for Erasmus+ experts and assessors working on the assessment of proposals for KA210 and KA220 projects in the fields of adult education (AE), higher education (HE), school education (SE) and vocational education (VET). The event is designed for mostly new assessors (but also more experienced assessors will gain new knowledge). The training will encourage learning through guided exchange and discussion. The training is inspired by new lump sum financing model and new programming period altogether. The program has changed significantly and there are many new assessors. The goal is to achieve a common understanding among assessors working to assess proposals from different fields of education and training.
Expected results:	By the end of this training and development event, participants will: have improved understanding of the key factors involved in determining the relevance of a KA2 funding proposal; be able to apply this in future assessments; be able to analyse and determine the balance of cost-benefit in KA2 funding proposals using the data and information provided within project proposals and workplans; be able to evaluate the potential for impact and the validity of measures aimed at promotion and continued use of the concepts, models, products and services being proposed in KA2 funding proposals and partnerships; be able to apply the gained knowledge and skills in their future assessments.
Additional information:	All participants will be required to do some pre-reading prior to attending this training and development event. The trainer is well-experienced trainer Paul Guest. Preliminary Timetable: 18th October 2023 - arrival day, event begins with lunch approx 13:00 19th October 2023 - morning and afternoon sessions
