### TCA DESCRIPTION

<b>Themes and goals:</b>	<p>Aim and approach: To promote complementarity between actors of formal and non-formal educational sectors towards a more inclusive society, and to improve the impact of our educational processes by using Non Formal Education principles and approaches, as well as create empowerment opportunities for our people involved in adult education. This training course is not only based on a 'one way information-flow' but requires a pro-active and committed participation from the members. The TCA is not limited to the couple of days the participants spend together but starts before the actual encounter. Participants should therefore be well aware that they will be actively involved from the very beginning. Objectives: To promote education as an effective tool for empowerment. To promote cross-sectorial cooperation in education by bridging different approaches and methods between formal and non-formal education actors To identify what we have in common between formal and non-formal education To make participants feel and reflect about the power of different educational activities used during the TCA To fight against passivity of learners by growing curiosity and motivation to learn in any educational settings To reconsider our daily educational practices</p>
