Sector:	SE VET AE	Priority:	Digital transformation (2021-27)
Scope:	Transnational		
Type of presence:	Face-to-Face	Venue country:	Croatia
Venue city:	Zadar	Working language:	English
Key Action:	Not applicable	TCA documents:	
Postponed:	No	E+ Academy:	No
Start date:	25.05.2026	End date:	28.05.2026
Subtopic:	networking teaching interactive		

TCA DESCRIPTION

Themes and goals:	<p>This TCA Erasmus+ seminar is dedicated to the programme's strategic priority Digital Transformation. It focuses on embedding this priority into project development and implementation along with taking into account emerging trends in the field. The seminar supports participants in strengthening their projects' digital dimension and applying it within KA1 projects and KA210 partnerships. Participants will learn how to integrate relevant digital approaches that clearly enhance learning, broaden participation and strengthen institutional capacity. The seminar places particular emphasis on developing digital skills, digital and AI literacy and competence progression, in line with Erasmus+ expectations related to digital readiness, resilience and capacity. Given the rapid pace of technological change, the seminar will also address the expanding role of AI and data in education. Participants will be supported to integrate AI where it adds pedagogical value and to use AI and data responsibly, ethically and safely in line with European frameworks. Through concrete examples participants will get inspired to use approaches in the future work in Erasmus+ projects and activities. At the same time, the seminar will demonstrate how Digital Transformation can be linked to the other Erasmus+ priorities in an authentic way: Inclusion and Diversity with a focus on AI-supported inclusive practices, Participation in democratic life through strengthened information and media literacy, particularly in an AI-shaped environment, and Environment and climate action by connecting digital learning to greener practices and future-oriented skills. Participants will also learn how to use key European collaboration platforms, eTwinning and the European School Education Platform (ESEP), and EPAL, - to support partner search, project communication and dissemination and to strengthen project collaboration.</p>
Expected results:	By the end of the seminar, participants will have: identified pedagogically sound

and meaningful ways to strengthen projects through the purposeful use of digital technologies; applied strategies to build professional capacity, including digital skills development, digital and media literacy and AI literacy; integrated AI and data-informed approaches where they add clear value to learning, participation and institutional capacity, in ethical, safe and transparent ways; analysed institutional and project needs that can serve as a basis for future applications; analysed how to integrate European platforms into their project plans as practical mechanisms for virtual cooperation and for sustaining project results beyond the funding period; evaluated how to align Digital Transformation with inclusion and diversity, democratic participation through information and media literacy, and environment and climate action.

Additional information:

Selected participants are required to attend the seminar programme in full, from the opening session to the closing session. The Agency for Mobility and EU programmes (National Agency for Erasmus+ and European Solidarity Corps in Croatia) will cover three nights of hotel accommodation as well as meals provided during the seminar programme. The seminar venue in Petrčane, Croatia is approximately a 30-minute bus journey from Zadar. The closest airport is Zadar airport, approximately 90 minutes from Petrčane. More details regarding travelling and practical arrangements will be provided after the selection process.

PARTNERS AND PARTICIPANTS

Organiser NA: HR01 - National Agency for Mobility and European Union Programmes

Number of participants: 50

Target group: School leaders, directors | Teachers | Education professionals | Experts | Other support staff

Erasmus+ Programme experience level: Newcomers and Experienced beneficiaries

Profile of participants: The seminar is intended for less experienced beneficiaries in the field of digital transformation who are implementing both KA1 and KA210 projects. The profile of participants includes educators and project staff from Adult Education (AE), Vocational Education and Training (VET) and School Education (SE).

Participants per country: 10 - Croatia

Sending partner(s) - Booked places:
