TCA DESCRIPTION

Themes and goals:	<p>This international networking event aims to foster collaboration and knowledge exchange in higher education by bringing together key stakeholders in the quality enhancement of teaching and learning in EHEA countries. The event seeks to strengthen cooperation and exchange of knowledge and experience, fostering dialogue between policymakers, institutions, professional organizations and educators at both national and European levels. A primary focus will be on how EHEA policy goals can be implemented in the everyday practice of higher education institutions and teachers. Another key objective is to support the capacity building of HEIs and the professional development of HE teachers, by presenting the freely available PROFFORMANCE toolkit comprising the complex and comprehensive assessment tool for teachers' performance, the teaching excellence database and the PROFFORMANCE short courses. The event will showcase innovative teaching and learning practices, encouraging the adoption of new methodologies to enhance education quality. The event will concentrate on discussing how HE stakeholders can contribute to EHEA and Erasmus+ objectives, by enhancing digital and green transformations, promoting interconnectedness, and bolstering international cooperation, inclusion, and diversity. All PROFFORMANCE products are aligned with these priorities, emphasizing a student-centred approach which aim to support HEIs and educators in this journey. Through structured discussions and networking opportunities, participants will establish valuable connections, fostering long-term collaboration and impactful partnerships.</p>
