Rationale and background:

The results of this LTA could be really important and effective, such as:

- Reinforcing European identity and sense of belonging, through the means of civic engagement dissemination activities;
- Creating synergies among networks of Erasmus Alumni/Ambassadors to improve communication about Erasmus+;
- Spreading European opportunities with citizens;
- Encouraging newcomer's participation through real life Erasmus experiences;
- Raising awareness among the network of the challenges of the European Union and the active role of EU citizenship in green & digital transition and social inclusion.

Challenges:

More specifically the challenges are To unify the networks of Ambassadors, Alumni and Role Models between different countries to create an extensive organisation of People committed to carry the messages of the European Commission and create a sense of civic belonging to Europe. To create stable relations with the Institutions on the territory, to collaborate in promoting and organising activities on the territories to consolidate and direct the civic engagement. To create a structure of national Observatories that can periodically measure, by means of indicators, the improvements on the themes promoted by the European Commission (internationalisation, civic engagement, inclusion, green, digital, etc.) to identify the critical areas and design, together possible corrective actions. To define a program of events to be repeated periodically on the territory. Starting in Italy at regional level, involving institutions, networks of Ambassadors, Alumni and Role Models and targeting teachers, territories and citizens. To organize international events in which Alumni/Ambassadors meet and create multi-country groups to go and meet students and teachers together, bringing a message of common intent and union of cultures and races. To foster synergies between funds in order to increase the number of mobilities and projects granted, and to promote civic participation in European life.

Planned Activities:

Next week the final event of the TCA-Role Model will take places in Florence. The TCA has started the works for the constitution of the Role Model network, developing tools and methodologies for its constitution and management. Moreover in September 2022 the Italian NA will organize a National event and in December 2022 an International event. In 2023 an International TCA will be organized by the Swedish NA and by the French one. In 2024 the Spanish NA (SEPIE) will organize an event and Italy will plan a dissemination event in december 2024.
