Sector:	HE	Priority:	Environment and fight against climate change (2021-27)
Scope:	Transnational		
Type of presence:	Face-to-Face	Venue country:	Italy
Venue city:	Rome	Working language:	English
Key Action:	Not applicable	TCA documents:	InfoPack-Erasmus_GRE EN-Rome.pdf, Rome_Green_Programme.pdf
Postponed:	No	E+ Academy:	No
Start date:	16.04.2026	End date:	17.04.2026
Subtopic:	sustainability raising awareness		

TCA DESCRIPTION

Themes and goals:	<p>The Italian Erasmus+ NA, as part of the Long-Term Activity (LTA) Sustainability and Greening, organizes the TCA seminar "The Erasmus+ Generation for the Earth". The main goal of this TCA is to enhance the vision of the E+ European Generation towards the Climate and Ecological Crisis (CEC) which involves the Planet Earth. The event will support the creation of a Manifesto to summarize the desirable and the feasible, the dream and the reality in a way where the competents, the creativity and the sensitivity of international students towards the crisis will be expressed in line with desirable solutions to it. The event will gather Higher Education (HE) students representatives from the E+ participating Countries. The event is organized in partnership with the Italian Committee of the International Earth Day. In this framework, participants will receive structured perspectives on the climate and ecological crisis by internationally recognized keynote speakers. They will provide the right inputs in order to make students cooperating to find mutual solutions for the analyzed problems. The Climate Fresk (CF) will also be offered. CF is a collaborative workshop based on the IPCC reports. CF is a powerful tool for providing a quality climate education. It teaches the fundamental science behind climate change so to empower people to take action and build solutions. After the scientific analysis of the framework, participants will be divided in working groups to work on solutions. The work of the groups will be brought together in a final report, the Manifesto of the E+ Generation for the Earth, which will</p>
--------------------------	---

describe and highlight the entire journey of the young participants. The final document will offer a comprehensive summary of the activities carried out, the methodologies used, the reflections that emerged, and the proposals formulated by the students, providing a comprehensive overview of the learning experience and the contributions generated by the working groups. The Manifesto will be presented at the Italian pavilion during the COP 31 by a delegation of the international E+ students contributing to it. Thus the event provides a unique occasion for networking, sharing innovative ideas, implementing learning outcomes, offering transferable results. There will be plenary sessions and spaces for interaction among participants, who will discuss good practice examples, opportunities and benefits, challenges and lessons learned.

Expected results:

Enhance Awareness: Share updates information on the Climate&Ecological Crisis (CEC) and the Erasmus+ opportunities to face it in a cooperative and international approach which will also focus on provided tools like green travels. **Identify Synergies:** Enhancing the importance of multidisciplinary approaches to a problem like the CEC in order to highlight the importance of contributions from both the scientific and the humanities sectors. **Creating lasting connections** among students from different Countries so to have a lasting impact. **Develop Proposals:** Europe plays a role: supporting the creation of a Manifesto which summarizes the desirable and the feasible, the dream and the reality in a way where the collective intelligence and the sensitivity of the international students towards the crisis will be expressed. **Foster Dialogue:** Promote an open and constructive exchange of ideas, experiences, and expectations among all the future E+ Generation of the Earth.

Additional information:

Venue: Earth Day Village, Villa Borghese, Rome
 The event is organized in partnership with the Italian Committee of the International Earth Day. The event will start at 8.30 am on the 16th of April and it will finish at 6.30 pm on the 17th of April and it will involve aprox. 150-170 participants: 50 participants from Italy as organizing Country 100 participants from E+ HEIs in Europe (priority will be given to the Countries participating in the LTA Sustainability and Greening) European Commission, Green Priority Officers Salto Green 1 NA staff (priority will be given to students)

PARTNERS AND PARTICIPANTS

Organiser NA: IT02 - Agenzia Nazionale Erasmus + - INDIRE

Number of participants: 150

Target group: **Students**

Erasmus+ Programme experience level: Newcomers and Experienced beneficiaries

Profile of participants: At least B1 English speaking (the conference will be in English and interaction is crucial) Student representatives who experienced an E+ opportunities Priority will be given to students who went on an E+ Green Travel Priority will be given to those students whose learning outcomes in their academic paths are related to the climate crisis Priority will be given to students who take actively part in organizations related to fighting the CEC

Participants per country:
Sending partner(s) - Booked places:

 AT01 - 2 | BE01 - 2 | CZ01 - 3 | DE01 - 4 | DK01 - 2 | EL01 - 4 | ES01 - 2
