Venue city:	Vilnius	Working language:	English
Key Action:	Not applicable	TCA documents:	
Postponed:	No	E+ Academy:	No
Start date:	28.04.2025	End date:	30.04.2025
Subtopic:	sustainability networking interactive project management		

TCA DESCRIPTION

Themes and goals:	<p>This activity is linked to the LTA “Sustainability and Greening” coordinated by DE1Join us in Vilnius, the European Green Capital of 2025, for a three-day seminar on sustainability in Erasmus+ projects, designed to explore strategies, best practices, and practical tools to enhance the sustainability of Erasmus+ initiatives and organisations implementing them. The seminar will not only cover the theoretical foundations of sustainability in Erasmus+ projects but will also focus on the practical, everyday challenges of implementing these concepts both during project implementation and within the daily operations of the organization itself. Participants will engage in real-world scenarios and case studies, ensuring that the strategies and tools discussed are directly applicable to the day-to-day management of projects, helping to bridge the gap between theory and practice. Through expert-led workshops, panel discussions, and hands-on activities, attendees will gain valuable insights on how to create sustainable initiatives, manage resources efficiently, and integrate eco-friendly approaches into their Erasmus+ projects. Participants will also have the opportunity to exchange ideas, foster new collaborations, and learn from successful case studies across Europe. By the end of the seminar, participants will have developed a solid understanding of how to incorporate sustainable practices into their Erasmus+ projects, ensuring that their impact extends beyond the project’s duration. The TCA is open to participants from all sectors – AE, VET, SE, HE.</p>
Expected results:	<p>Enhanced knowledge of sustainable practices and their integration into Erasmus+ projects. Practical tools and strategies for managing projects with a focus on environmental sustainability. Strengthened collaboration among Erasmus+ participants and organizations focused on sustainability. Actionable</p>

plans for implementing sustainable practices in future Erasmus+ initiatives. Improved capacity to evaluate the long-term impact and success of sustainability efforts within projects.
