### TCA DESCRIPTION

<b>Themes and goals:</b>	<p>The current Covid-19 pandemic has forced students and academics to switch to online teaching modes. Thus the process of digitalisation in higher education has evolved rapidly. In 2020, the European Commission published a special call for proposals for Strategic Partnerships focusing on digitalisation, inviting universities and other stakeholders to prepare and submit digitalisation projects. Digitalization is visible in different areas of HEIs' activities: teaching, research, serving to society, internal management. This was expressed in the submitted proposals. During the seminar, we would like to:</p> <ul style="list-style-type: none"> <li>· invite participants to share lessons learnt so far from implementation of "digitalisation driven" projects,</li> <li>· discuss with the participants and experts what digital university should look like,</li> <li>· analyse which kinds of knowledge and skills can be taught online, and</li> <li>· check how universities address the challenges of changing the learning process in the digital era.</li> </ul>
<b>Expected results:</b>	Exchange of good practices and recommendations for HEIs how to prepare University for a challenges related with digitalisation of HEIs and new modes of online teaching and learning.
<b>Additional information:</b>	<p>Registration for Erasmus+ webinar:  <a href="https://ec.europa.eu/eusurvey/runner/DigitalUniversity">https://ec.europa.eu/eusurvey/runner/DigitalUniversity</a> We are looking for good practice examples - speakers for the following topics:- Digitalisation of learning processes- Digitalisation of university management Increasing digital competences of academic staff.</p>
