Start date:	16.06.2025	End date:	18.06.2025
Subtopic:	application sustainability networking strategic partnership evidence based interactive project management EU policy raising awareness		

TCA DESCRIPTION

Themes and goals: Sustainable Connections is a transnational Erasmus+ seminar aimed at enhancing the quality of ecological projects implemented within the Erasmus+ program, particularly under KA2 actions. The event is targeted at VET institutions that wish to develop innovative projects focused on sustainable development, aligned with current ecological needs. The seminar aims to increase the innovation of these projects, improve their quality, and ensure that the ecological themes remain relevant and in line with the challenges faced by today's world. Participants will have the opportunity to establish valuable international connections, exchange experiences, and gain insights into best practices for implementing ecological projects, enabling them to introduce new, effective solutions into their daily operations.

Expected results: Enhanced Knowledge and Skills: Participants will gain a deeper understanding of how to integrate sustainability into Erasmus+ projects, focusing on practical strategies for reducing environmental impact and promoting green transformation. Improved Project Quality: By exploring best practices and innovative approaches, participants will be equipped with the tools and knowledge necessary to enhance the quality and effectiveness of their ecological projects in the Erasmus+ framework. Increased Innovation: Attendees will be inspired to adopt innovative solutions for addressing environmental challenges, leading to more creative and forward-thinking project proposals in the future. Strengthened International Collaboration: The seminar will foster new partnerships and networks between VET institutions across Europe, encouraging future cooperation on environmentally focused projects. Practical Action Plans: Participants will leave with actionable ideas and plans for

implementing sustainability initiatives in their own projects, contributing to the green transformation of education and training practices. Updated Understanding of Ecological Needs: The seminar will help participants stay informed about the latest trends, policies, and practices related to environmental sustainability, ensuring that their projects remain relevant and responsive to current ecological challenges.

Additional information:

The event is scheduled for 16 -18 June (Monday – Wednesday). The meeting will begin with a morning session on Monday 16 June and end with lunch on Wednesday 18 June. Participants can take advantage of an overnight stay from Sunday to Monday 15/16 June. During the seminar, the possibilities of Erasmus+ VET KA2 will be developed together in an interactive way, with a special focus on integrating ecological approaches into projects, promoting sustainable practices, and addressing environmental challenges within the framework of Erasmus+ initiatives. The event includes also a cultural programme. The Polish NA will cover accommodation for 3 nights (15/16.06, 16/17.06, 17/18.06). Extra nights must be paid separately by participant. The Polish NA will cover all meals and programme costs during the event. We expect 50 participants.

PARTNERS AND PARTICIPANTS

Organiser NA: PL01 - Foundation for the Development of the Education System

Number of participants: 50

Target group: **Trainers** **Teachers** **Education professionals**

Erasmus+ Programme experience level: Newcomers and Experienced beneficiaries

Profile of participants: The seminar is designed for professionals involved in Vocational Education and Training (VET) who are interested in integrating sustainability and ecological awareness into their projects. Participants may include representatives of VET institutions, educators, project coordinators, and stakeholders from organizations engaged in Erasmus+ initiatives. The event welcomes individuals eager to establish international partnerships, exchange best practices, and develop innovative, eco-friendly approaches within the VET sector. A strong interest in sustainability, green skills, and environmental responsibility is highly encouraged.
