TCA DESCRIPTION

Themes and goals:	<p>This international in-person training course builds on the well-established Power of Non-Formal Education for the adult learning context. During the 4 days, the course will enhance educators' capacity to use experiential and participatory methods, explore the complementarity of formal and non-formal education, and increase the quality and impact of E+ adult learning projects. The main aim of the activity is to improve the educational impacts through experiencing a non-formal educational (NFE) process. More concretely: To broaden our perception of NFE and its potential impacts in our different realities in Europe To explore the complementarity between formal and non-formal educational sector To affirm the political dimension of non-formal education, as a way to take an active role in society (empowerment process) To reconsider our daily educational work practices, identify our challenges in order to improve the coherence between values we promote and our daily actions</p>
Expected results:	Increased understanding among adult educators of the principles and impact of non-formal education (NFE) in adult learning contexts.
