- Calendar of events differentiated by sector in visual appearance
- IT Platform logic follows the **TCA life cycle**:
- **planning - promotion** / selection – realization / evaluation – follow up

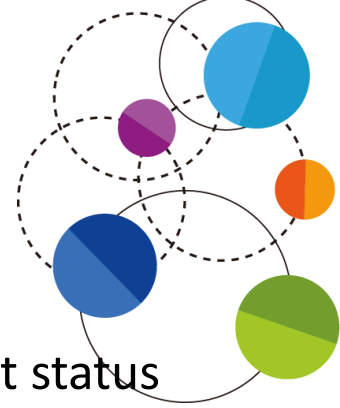

**Phase 1** (2018)

Phase 2 (2019 Q1)

Phase 3 (2019 Q3)

Added value:

- Avoiding overlaps (thematic, timing)
- Increased possibility for continuity
- Monitoring priorities and topics
- More relevant topics
- Easier to find partners
- Easier to plan the sending activities
- Larger proportion of using available funds
- Assessment of the results (from 2019)
