To participate in a meeting, **you must have a Flash-enabled browser or the Adobe Connect application for desktop.**

Some practical advice to use the program:

1. You need strong and stable internet connection.
2. If your connection is weak, it may help if you pause or turn off your camera.
3. If your connection is weak, or you cannot use your mic or camera (This option is available only if the Host has enabled microphone and camera rights for participants.) it may help if you try to reconnect to the meeting.
4. If you are unable to connect or install the application, please contact your IT colleagues for assistance.

Join the meeting on the first time (if you do not have Adobe Connect application)

1. **Click on the link** in the email.
2. If a **pop-up window** comes up: **windows system security**, where it asks for credentials, you can **click ok without filling in.**
3. The **meeting room website** will appear.
4. On this page, **enter your full names under Guest**, then press **Enter room:**

5. You will be taken to this page, **click on Download:**

Participant (Guest): Guest participants can view the content that the presenter is sharing, hear, and see the presenter's audio and video broadcast, and use text chat. Participants can mute audio broadcasts on their computers.

Turn on the mic

Tap  and then tap Connect my Microphone. This option is available only if the Host has enabled microphone rights for participants. You can also adjust the microphone volume, if necessary. When your **microphon icon is green, your mic is on**.

Mute on the mic

When your microphone icon is green, your mic is on. Tap the microphone icon to mute. If the **microphone icon is crossed out in green it is muted**.

Turn on my camera

Tap  to see the camera preview. Tap **Start Sharing** on your preview picture to enable others to view your webcam feed. When your **camera icon is green, your camera is on**.

Pause your camera

Tap the  icon in the **bottom left corner** of the **shared camera screen** to **freeze your screen**.

Change your status (participant)

When you select one of these statuses, the status icon is displayed in the Attendees pod for 10 seconds:

- Speak Louder
- Speak Softer
- Speed Up
- Slow Down
- Laughter
- Applause

The Raise Hand, Agree, and Disagree status icons remain visible until you or the host remove them manually. Attendees can remove the Stepped Away status icon themselves.

In a meeting, on the application bar, open popup menu of the statuses to access other statuses.

Join a meeting on mobile devices

1. On your **phone**, after you log in as a guest or a registered user, the room launcher screen appears.

2. To open the room in a browser on your mobile, click **Open in Browser**. If you do not have application for desktop, to install it, click **Install**.

View what is being shared

Tap  to view what is being shared currently. **You can view only one Share pod** at a time using a mobile device. If multiple Share pods are active at once, contents of only the active Share pod are visible. Tap in a Share pod to make it the active pod and view the contents shared in it.

Turn on the mic

Tap  and then tap Connect my Microphone. This option is available only if the Host has enabled microphone rights for participants. You can also adjust the microphone volume, if necessary. When you turn on the mic, the speakers may turn off. Use a headset to hear the audio.

View a webcam feed

Tap  to open the Camera pod. The number next to the icon denotes the number of feeds being broadcast. On phones, tap the arrows to browse the different feeds. All inactive feeds are paused in Adobe Connect to conserve bandwidth.

Turn on my camera

Tap  to see the camera preview. Tap Broadcast to enable others to view your webcam feed.

Specify which camera to use

Tap  to switch between the front and rear cameras, if your device has both.

I cannot log in

To log in as a member, enter the meeting URL, tap Next, and provide your login ID and password. If you're having problems, try the following approaches:

- Enter the meeting as a guest
- Open the meeting URL from a Web browser's address bar and enter your credentials on the Web login page. Upon successful authentication, you are redirected to the Adobe Connect for mobile.

I can't share my screen

Screen sharing is not supported on mobile devices.

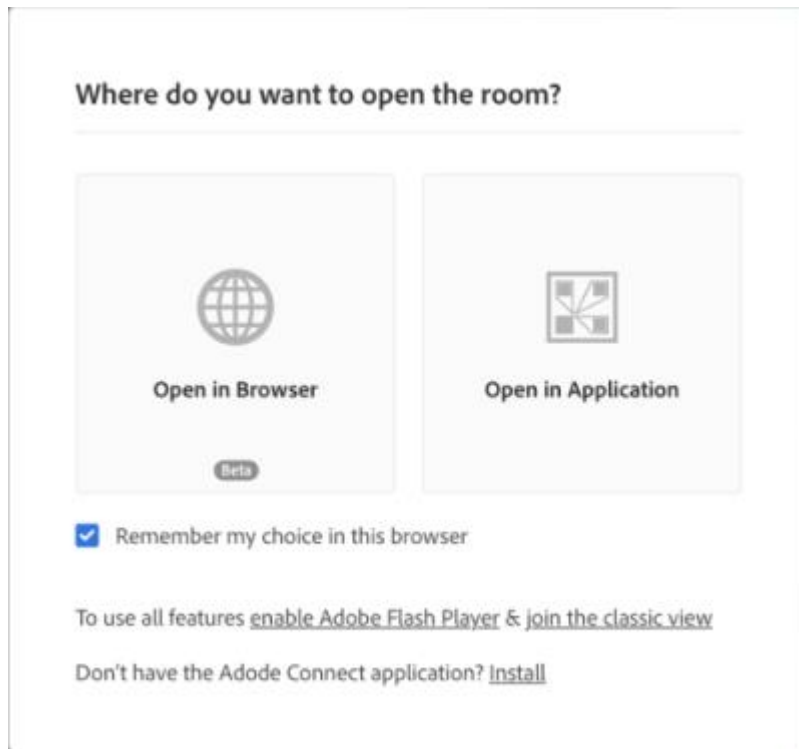

I don't see a camera option in the menu

The Camera option appears only if your device has a camera. Also, the Host must enable webcam access, so that participants can broadcast their camera feed into the meeting. If necessary, chat or speak with the Host to request the right to broadcast your camera feed.

[Adobe Connect for Tablet Help](#)

Join a meeting on tablet devices

1. On **tablets**, after you log in as a guest or a registered user, the room launcher screen appears.

2. To open the room in a browser on your tablet, click **Open in Browser**. To open the room in the application for desktop, click **Open in Application**. If you do not have application for desktop, to install it, click **Install**.

View what is being shared

Tap  to view what is being shared currently. If multiple Share pods are active at once, contents of only the active Share pod are visible. Tap in a Share pod to make it the active pod and view the contents shared in it.

Application for desktop

You can download the Adobe **Connect application for desktop** from the [Downloads and Updates](#) page.

The application can be installed in two ways:

1. It can be automatically installed during a meeting via lightning download.
2. It can be installed before your meeting, using the installers below.

These installers install the Adobe Connect application for **Windows** and **Mac**.

If using **Firefox on Mac OS**, you must **right-click on the appropriate application** link below and **select "Save Page As"** to download the application.

Please note that although there is currently **no application for Linux**, can still attend, host, or present in meetings in the browser.

- For Windows: <http://www.adobe.com/go/Connectsetup>
- For Mac: <http://www.adobe.com/go/ConnectSetupMac>

Application for Smartphone or Tablet

You can also access an **Adobe Connect session** using a **smartphone** or a **tablet**.

Adobe Connect Mobile enables you to attend a meeting from your **iOS** or **Android** device. Adobe Connect Mobile is optimized for a small screen and provides a great meeting experience.
