

# ..Evaluation - please give us your comments: the good, the bad, the .....?!

everything was great, thank you!

good: mini trainings

Exciting and well balanced

More structured discussion on tca planning...otherwise all was great

More time to network and talk future TCA's

Good ideas, interesting speeches, interesting discussions

Good vibes, fruitful meeting, we worked hard, great to share ideas!

Excellent!

Not optimal to have many presentations after lunch ;-)

# ..Evaluation - please give us your comments: the good, the bad, the .....?!

Good discussions and the minitraining on Salto was very useful.

Well organized, good balance of plenary sessions and trainings

Great exchange with colleagues

Very Well organized !

Very well organized, effective, good speakers, good workshops, useful, good topics, good timing

Thank you. I had a great time and learned a lot.

Good planning phase, enough time for discussions. Misunderstanding/communication concerning Hotel costs

Good workshops, good presentations. But we enedes more planning of TCA's and free brainstorming of possible TCA's in the future.

everything was great. Looking forward to the TCA academy!

# ..Evaluation – please give us your comments: the good, the bad, the .....?!

Very good organization. Good balance between different contents and activities

Discussions and networking with colleagues was great, lots of ideas going forward.

Next TCA meeting in Skopje :)

very informative and well planned

Meeting the colleagues is valuable for the sake of exchange as well as ventilation ;)

More time to work on tca ideas

Good workshop on ict tools, salto workshop: more time needed, well organized seminar

Everything great...but giving some more space to discussing new TSAs would be good as well

The open spaces were welcomed - more of this format would be wished for. Wish we had more time to discuss 2020 work plan. Mini trainings did not provide much learning outcomes for me unfortunately

# ..Evaluation - please give us your comments: the good, the bad, the .....?!

Very good and well organised meeting. I learned a lot, especially from colleagues. I come back home with a lot of fresh ideas.

Excellent place of the event Smooth organisation Professional work Inspiring discussions Thank you all!

Good, bit it would have been good with Administrative discussion,

We could have drafted a proposal for the futures TCA

The trainings from the second Day might be Better. Best input from Anne. +organizers

Would appreciate more training on the platform and space for specific technical recommendations only for the platform. Otherwise much space for networking getting to know the People. The venue was perfect and Thank you for this Hard work :)

More mini workshops, better prepared, with more cohesive structure. Hotel was far from facilities. Excellent organisation.well done

A good development on last year, not only in logistics & atmosphere but organisation, content management and a clear thematic focus. These sessions are particularly useful for peer to peer learning and discussions so perhaps more open agenda options

Inspiring, informative, it is good to know that remaining questions on SALTO could be solved afterwards. The SALTO Team and the dutch NA do a very good job. Thank you very much for it.

# ..Evaluation - please give us your comments: the good, the bad, the .....?!

Very well prepared , Thanks for that, may be more time for discussion of future TCAs next time!
