TCA	Developing an international strategy – schools in general	VET goes digital: Enhance the digital transformation of VET field, and support E+ virtual mobilities, through long-term TCA activities	Greener Erasmus+ contact making seminar	Stand up for a Greener Europe	Erasmus without paper	Digital competences at the dawn of the New Programme-online and blended learning enhancing the mobility experience	Erasmus+ goes green	We chose digitalization
STRATEGIC GOALS	Demystifying the concept of strategical planning - supporting schools to develop and implement international strategies	Make beneficiaries familiar with online tools/ Transfer knowledge/focus on training institutions	Environmental and climate goals: awareness-raising about environmental and climate-change challenges. developing green sectorial skills strategies and methodologies, as well as futureoriented curricula that better meet the needs of individuals.	Raise awareness of a greener future	Facilitating discussion and dissemination of best practice for Erasmus Without Paper implementation for other NAs and HEIs.	Inclusion, virtual cooperation Virtual cooperation BLENDED! Inclusion European values	How to support sustainability in Erasmus+ project ie paper consumption	Taking the Mystery out of digitalization through Gaming

TCA PROJECT OBJECTIVES

<p>Supporting newcomers into the programme/ supporting the organisations in the beginning will lead to better impact and quality in the end / number of applications, accreditations, youth passes, Europasses etc will raise</p>	<p>Develop guidelines make participants use online Tools</p>	<p>Pax find like-minded people on sustainability -Pax learn the basics of writing E+ applications- Pax will get acquainted with new digital tools/methods/pl atforms.- Pax understand what sustainable Education is. -Pax have more knowledge on green approaches beyond selective rubbish collection (green ways of transportation, paperless solutions,green economy, etc.)</p>	<ol style="list-style-type: none"> 1. Provide adult educators with tools to integrate a greener approach in their daily work 2. Help educators to integrate awareness of a greener planet in their daily work 3. Promoting cooperation among countries for a common work on European natural heritage 4. Exploring new approaches in adult education to support the learners integration abilities by using a common European approach 	<p>Increased knowledge of digitalisation- Greater cooperation and dissemination of digitalisation best practice.</p>	<p>Improving quality of teaching and learning Improve quality of learning and teaching and enhance inclusion using digital tools and blended mobility</p>	<p>Provide participants with an understanding of blended mobilities and how it can be incorporated into a European project. - Understanding of digital platforms to help support projects eg eTwinning/ Eplale - Help provide a common understanding of sustainability and how your project can enhance sustainability -Identify good practice amongst beneficiaries and to share resources/ resources and learning outcomes</p>	<p>Objectives: seminar, identifying dis/advantages of gaming used in education&training; enhancing quality of teaching and learning Target group: Youth workers, Teachers VET, SE, AE, HE have a basic understanding in the educational context concerning "gaming" with learners. Promotion and enhancement of basic skills through the use of gaming (i.e. through modern devices) Provide opportunities for the sharing of knowledge, good practices and experiences related to different aspects of gaming as a tool; increase knowledge of efficient tools and methods; increase competences;</p>

<p style="writing-mode: vertical-rl; transform: rotate(180deg);">EXPECTED LEARNING OUTCOMES of TCA PARTICIPANT</p>	<p>Participants are able to formulate international strategies based on the schools need, /able to plan the steps for concrete implementation/p articipants can apply successfully for accreditation in the Erasmus+ programme, /participants' multicultural cooperation competences will grow;</p>	<p>Participants will gain basic IT/online knowlege in online cooperation event Participants will have proficiency in online tools</p>	<p>Participants will be able to design and write quality Erasmus+ applications. - In the project implementation phase these TCA participants will use sustainable ways regarding transportation, methodologies at LLTs. - Participants will be able to build a new digital curriculum. - Participants will be able to independently build networks to prepare and implement their projects.</p>	<p>Higher engagements of adult educators and learners in the European Green Deal, which is a long-term strategy</p>	<p>TCA participants would have increased confidence in implementing Erasmus Without Paper in their organsation,</p>	<p>Participants will acquire skills to apply for and develop Erasmus+ projects Participants will be aware of different new tools and platforms available for digital learning and be able to choose appropriate tools for their specific needs.</p>	<p>Participants have an understanding of good practice in terms of implementing 'Green' Erasmus+ projects - Exchange of ideas and increase understanding of sustainability - partnership finding on the topic of sustainability - practical tools and resources to apply back to their organisation Clearer understanding on blended mobility</p>	<p>Participants are aware what/which games can be used; participants are able to use gaming in educational process to enhance basic skills; participants are aware of the pitfalls of the use of modern devices; participants understand good practices;</p>
--	---	---	---	---	---	---	---	--

<p style="writing-mode: vertical-rl; transform: rotate(180deg);">EXPECTED OUTCOMES and OUTPUTS of the TCA</p>	<p>Contact making could be an outcome of a thematic seminar as well both for individuals and organisations, project proposals, exchange of crucial experience in planning and processing projects, internationalisation plan for the schools</p>	<p>VET platform like EPALE Change mentality digital mobility as an option outcome: concentrate/ Combine existing knowledge and tools</p>	<p>Booklet of good practices regarding green solutions - deeper insights of green economy - new connections (possible future project partners) - participants get to know EPALE and other important platforms</p>	<p>1. A practical guideline for adult educators in general on how to integrate the awareness of a greener future in their daily work 2. Practical examples that are realized in working groups during the activity by using the guidelines on three topics: - A Greener Europe - Shared natural heritage - Common European values</p>	<p>To produce a resource based on the experiences collated from participating HEIs That this TCA would occur annually and that the knowledge collected would be built on annually.</p>	<p>Organisations will launch new KA1 (improved blended mobility) or KA2 projects on digital learning and teaching Quality of teaching and learning will be improved for both local and Erasmus students</p>	<p>Greener Erasmus+ - develop a resource on sustainable tools for E+ projects Enhance the quality of blended mobility engage newcomers into the project and enhance experienced participants knowledge in this field Enhance cross-sectoral activities amongst different fields- create new synergies</p>	<p>New knowledge; new contacts; new project ideas; make gaming ideas available to all (e-brochure distributed to all NAs with a request to disseminate it to end users - teachers/educators in all sectors) create further virtual events on the topic sustainable relationship between experienced and newcomers (kind of buddy system; long term network connection)</p>

ELEVATOR PITCHES

	<p>It is a Mythbuster! Good sustainable project ideas will arise from this TCA. Due to the current covid-19 situation this TCA will be a virtual or blended seminar. Also to opening minds for new cultures - also for use for every school steps to strategical thinking and planning like a tool= catalogized questions, grids how to go and other concrete steps for strategies to help schools overcome the "obstacles"</p>	<p>What: Training Course on digital Tools/methods why: learning 2.0, make remote Areas as accessible as others how: Maybe blended</p>	<p>People of the World! Who is the greenest? The Unicorn NA is organizing a contact-making seminar on Green Erasmus+ . Use your chance to change the World! Come together and create your dream projects. Peace!</p>	<p>The TCA "Stand up for a Greener Europe!" is a thematic recurrent activity exploring three areas in adult education: 1. A Greener future for Europe 2. A shared natural heritage 3. Common European values Many activities in adult education are based on providing specific skills to learners (e.g. IT tools) and Educators often miss strategic approaches in their daily work. The topic of a greener Europe promoted by a common European citizenship is a challenge that involves everyone. It can easily be addressed in adult education activities. The TCA will: 1. Support a higher engagement of adult educators and learners in the European Green Deal and provide educators with tools for their daily work 2. Support adult learners in fighting for a greener planet 3. Promote and strengthen the Erasmus+ program by involving more people and promoting common European values and a shared natural heritage.</p>	<p>Drowning in paperwork? Learn to navigate digitalisation with our Erasmus Without Paper TCA. Our TCA will give you the confidence to implement the digitalisation of Erasmus+ with ease.</p>	<p>Mobility is changing. Are you ready? Join our TCA to learn more about digital tools and enhance your student's mobility experience. You will learn how to utilise them and engage your students come what may!</p>	<p>Erasmus+ Goes Green is a thematic seminar focusing on enhancing the topic of sustainability within Erasmus+ projects. The seminar will provide practical tools and knowledge on the topic of sustainability and how it can be applied to both E+ projects and your organisation. The seminar aims at engaging newcomers and experienced beneficiaries in the field of E&T. There will be an opportunity to find partners on the theme of sustainability.</p>	<p>"Have fun - dive into this TCA and play digitally to enhance basic skills of your learners. No matter which sector you are, we will show you some best practical examples you can use. And you might end up with a cool buddy!" All TCAs should have a short elevator pitch to make them appealing and attractive to interested participants!! No boring descriptions.</p>
