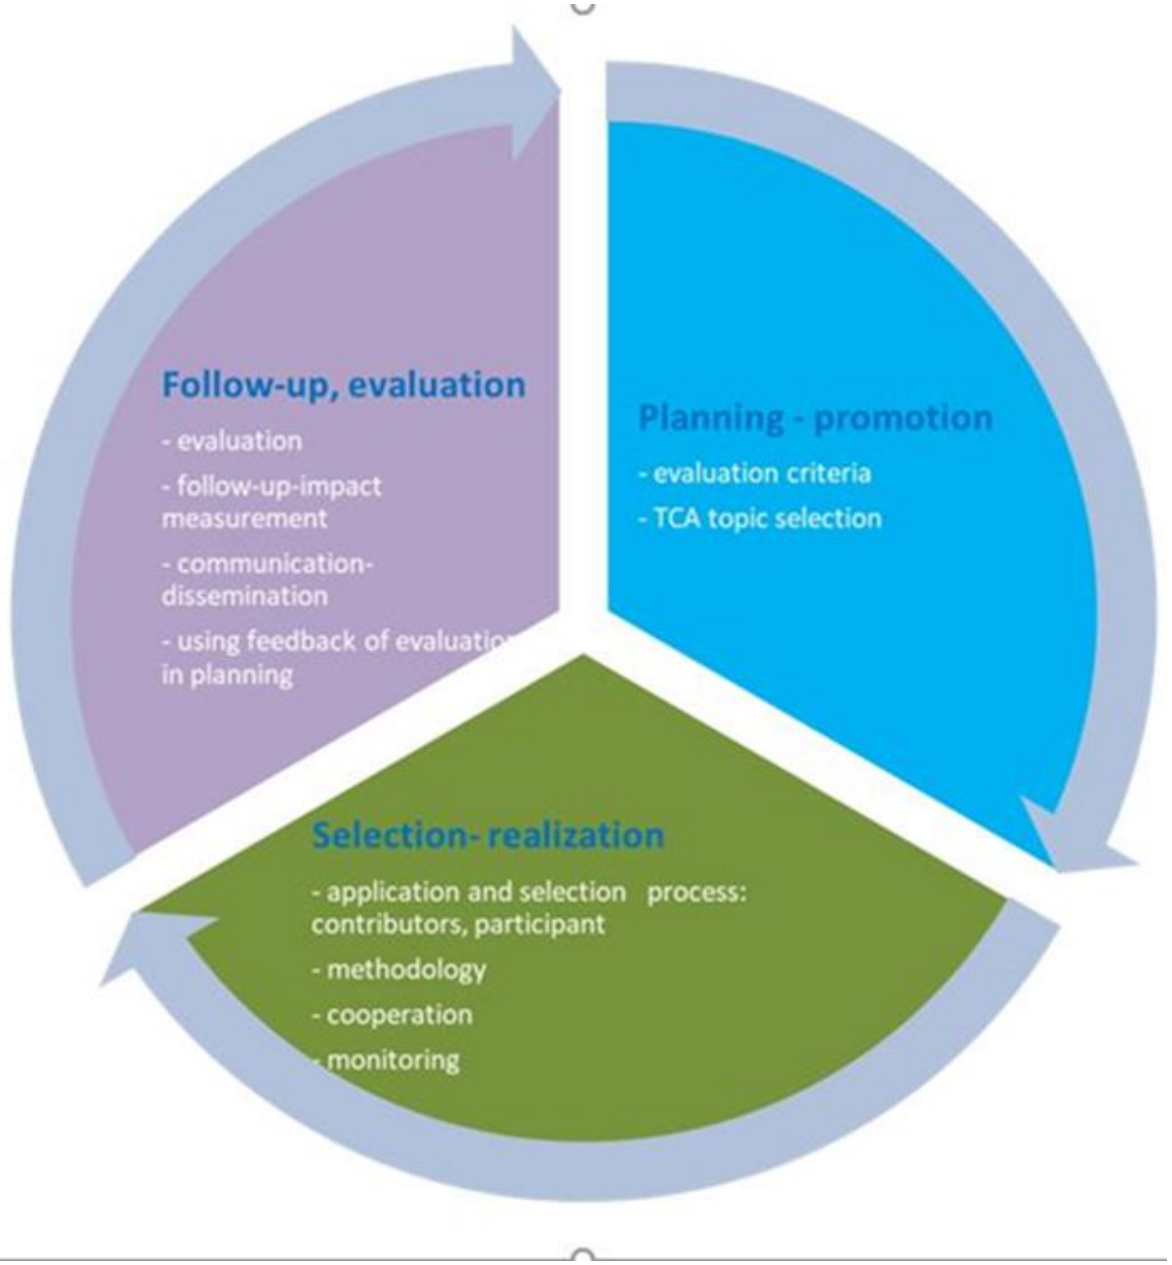
Good Practices



Follow-up, evaluation
- evaluation
- follow-up-impact measurement
- communication-dissemination
- using feedback of evaluation in planning
Planning - promotion
- evaluation criteria
- TCA topic selection
Selection- realization
- application and selection process: contributors, participant
- methodology
- cooperation
- monitoring

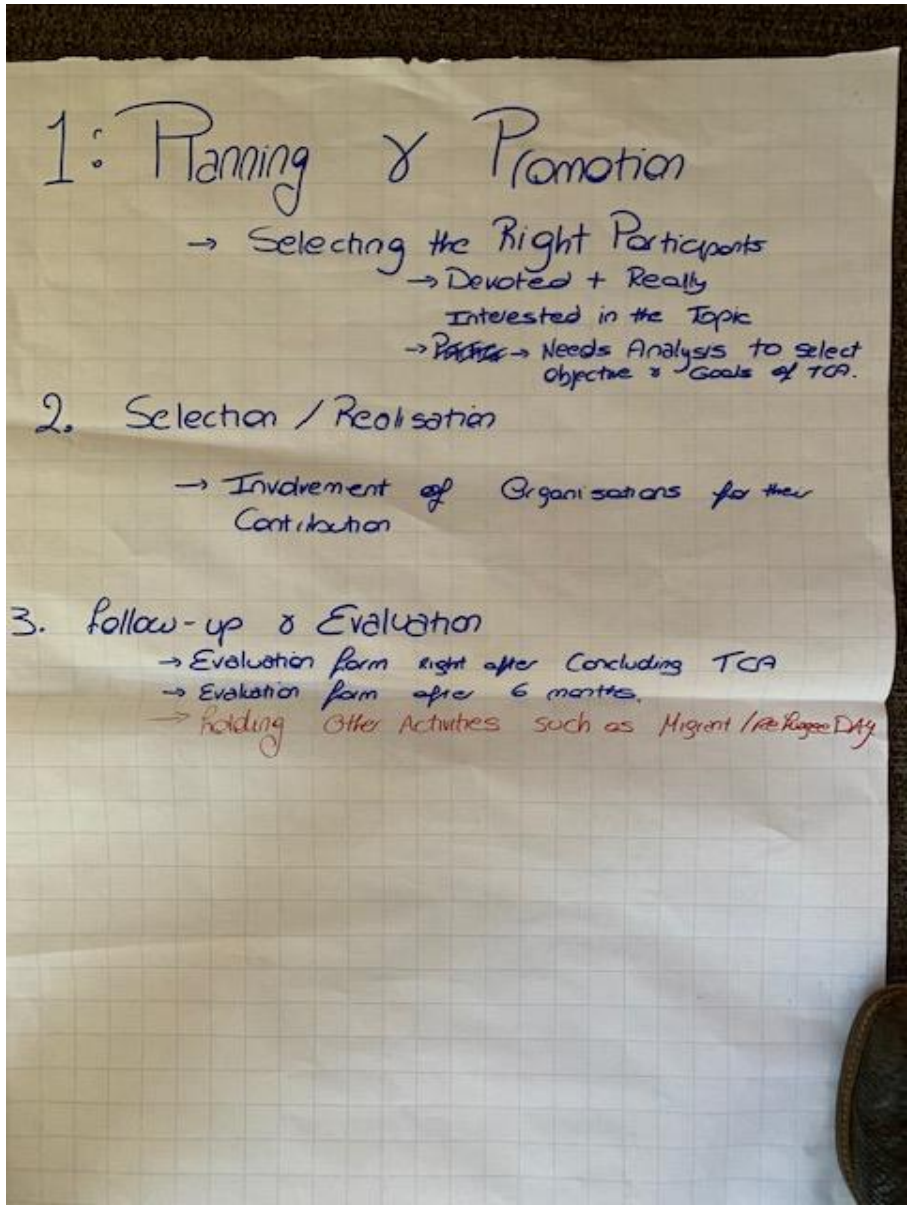
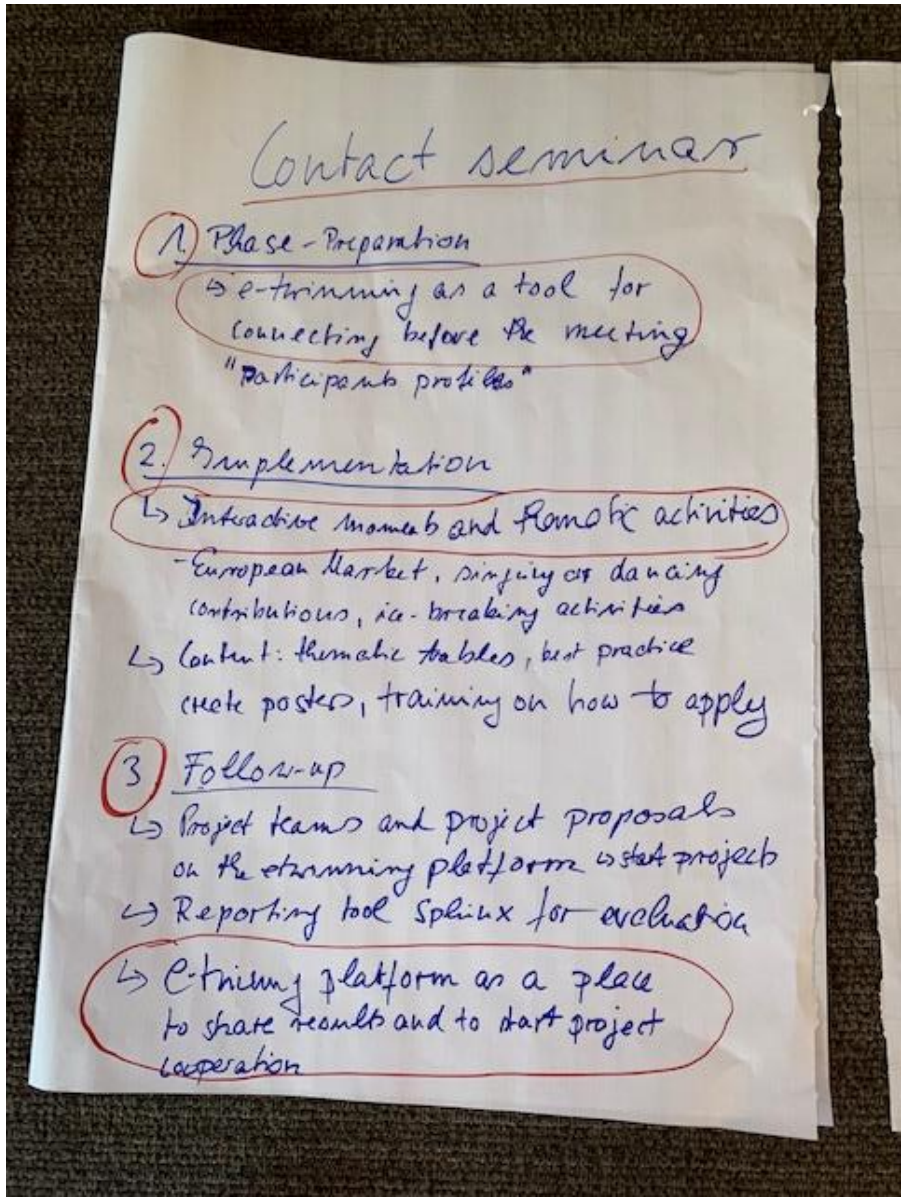
Training-concept
1. Why is this a good practice?
Better Impact in the applications
Continously → life cycle-based
- Constant improvement
- disseminate widely the outputs of the seminar
- gradual enlargement of sectors concerned
- Using multipliers to raise awareness of the tool (training of trainers/NA).
2. Key General insights for each main procis phase
Implement Impact+ in development of a TCA.
- TCA: how can we end up of an excellent tool to improve impact of projects fail → so improving impact of programs
- answer to the needs



1: Planning & Promotion
→ Selecting the Right Participants
→ Devoted + Really Interested in the Topic
→ → Needs Analysis to select objective & Goals of TCA.
2. Selection / Realisation
→ Involvement of Organisations for their Contribution
3. follow-up & Evaluation
→ Evaluation form right after Concluding TCA
→ Evaluation form after 6 months.
→ holding Other Activities such as Migrant / Refugee DAY



Contact seminar
1. Phase - Preparation
↳ e-training as a tool for connecting before the meeting
"Participants profiles"
2. Implementation
↳ Interactive moments and Remote activities
- European Market, singing or dancing contributions, ice-breaking activities
↳ Content: thematic tables, best practice
create posters, training on how to apply
3 Follow-up
↳ Project teams and project proposals on the etwinning platform to start projects
↳ Reporting tool Sphinx for evaluation
↳ e-twinning platform as a place to share results and to start project cooperation

Digital Competences

- Cross-sectoral, focusing on KA2
- The NA decides on a theme and then asks for ideas from the applicants. The ideas can be very vague at this point.
- About 10 participants - perhaps 8 from Estonia

Why is this a good practice?

- The Estonian NA is considered a force in the subject of digital competences. It has expertise and experience on the subject and this touches all the parts of the TCA cycle.
  - a good example of planning is creating a closed space on the web for all participants in advance.
  - a good example of follow-up is online evaluation sent to all participants
  - the expert is really important in the realisation phase, listening to the ideas and giving immediate feedback
