Erasmus+
Enriching lives, opening minds.

1. What is relevance (group discussions)

2. What to look for?

3. Break

4. SMART

5. What not to look for?

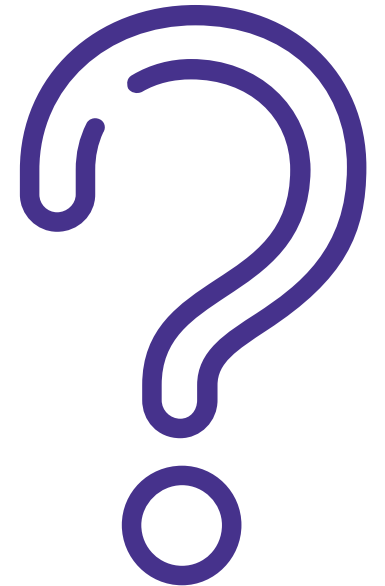

6. Collection-round

What is relevance in an Erasmus+ accreditation?

- ... and where to look for it?
 - Group discussion

What to look for?

- The red thread
- Nowhere specific in the application
- International perspective
 - is there a benefit gained by doing the activities internationally?
- Added value in by engaging in Erasmus+
- Is it written by the institution itself?

What's more to look for?

- The relevant sector?
 - Not eligibility criteria
 - A scale from 1-10
- Horizontal priorities
- National priorities
- Objectives
- Connections
- Irrelevant content

Regarding consortias

- The profile of the members
- The "ownerships" from consortium holder towards the member
- Implementation-possibilities
- The needs and challenges – are they SMART?

Is the accreditation SMART?

S

Specific

M

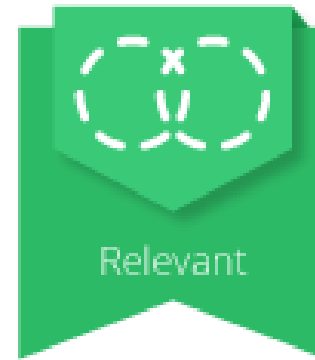

Measurable

A

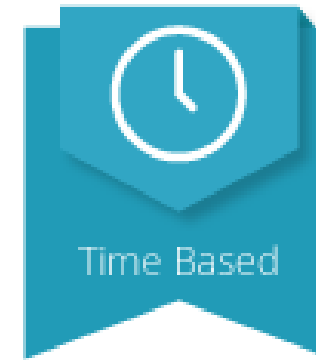

Attainable

R

Relevant

T

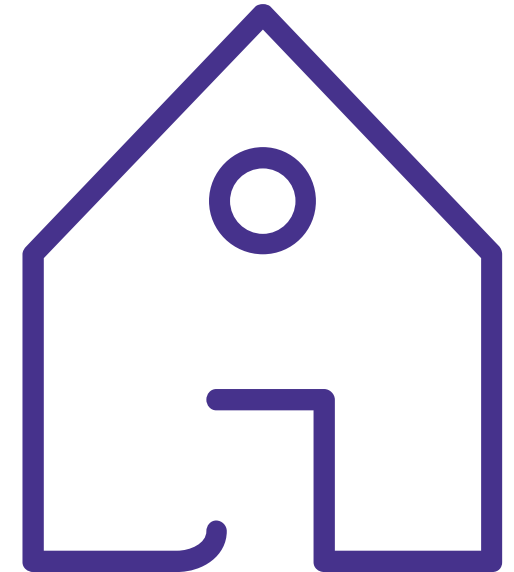

Time Based

What's not to look for?

- Eligibility
 - That was done prior to handing out the applications
- Bad grammar
 - Unless it's horrendous
- Spelling
 - Unless it's horrendous

Collection-round

- New definitions of relevance?
- Common ground?
- Etc.?
